#### ...Introductory...

EFORE beginning a Directory for Audubon county we carefully considered the magnitude of the task before us and carefully weighed the task of collecting the data and the benefit it would be to the patrons of the Journal and believed it would be to our mutual benefit. The immense popularity it has attained and the liberal support it has received shows us to be right in our estimate. We realized at the outset that errors would creep in as a perfect volume of any character is beyond human possibilities; but we have made every effort to keep the errors to the minimum and believe patrons will find it reasonably correct.

Our solicitor has made a careful house to house canvas of the county but in not finding people at home has had to resort to finding data from friends and neighbors as time would not allow him to cover a territory twice and that particular bit of information might have been different.

Aside from the Directory of the residents of Audubon county we have given a brief history of the more important steps in our state and authentic tables that will be of interest to every family and most desirable information to have in every house.

We do not give it as a cheap premium, for the vast amount of work and cost of labor expended will show our patrons better, and we trust, hope and believe it will be of lasting good to the readers of the Audubon County Journal.

Therefore, feeling confident that the people of Audubon county are quick to realize merit we give our Directory into their hands, hoping and trusting it will afford pleasure and profit to all to whom it may come.

Sincerely,

C. W. Marlin,

Editor and Publisher of Audubon County Journal.

## NOHME ON WORKHOL

### C. H. WILDE

EXIRA. IOWA.

#### Don't Blunder

when you buy a buggy be sure and see our line—more styles, better materials, more careful workmen, better finish and more value in a Kratzer vehicle than in any other make and also the Stoughton wagon is made of the best seasoned timber. Two extra spokes in each wheel and we guarantee this wagon to be the strongest wagon on the market.

#### The Famous Light Draft Defiance Landslideless Gang and Sulky Plows...

Handle easier than any other Gang or Sulky made. Turn square corners either way without any adjustment other than guiding the team. Entire weight of plow and driver always carried on the wheels.

We also handle the Light Running Plano Binder, the Jones Vertical Mower and the Jones Self Dump Hay Rake.

We handle the Oil Cooled line of frost proof Gasoline Engines. "We don't use water; can't freeze us." Manufactured by Fuller & Johnson.

#### Brief History of Iowa.

Short Sketches of Early Discoveries and Explorations. Some Early Settlements, the Indians, Louisana Purchase Growth of State, Its War Records, Facts and Figures of Interest.

#### EARLY DISCOVERIES.

The opening bars of the 16th century rung with the discordant notes of three great European countries contending for a foothold to establish empires in the new world that should redound to their future glory and fill the coffers of their depleted treasuries with revenue. Eric the Red, Columbus and Cabot had blazed the way to the portals of new possibilities and settlers of England, France and Spain were trying to enter the castle. History paints the early map of America with the English strung along the Atlantic coast, the Spaniards where Florida now is, and extending westward, and the French in the north with their line of entrenchments far west into the interior.

The earliest inhabitants of which we have any historical knowledge were the Indians. Columbus, DeSoto, Drake and Raleigh all have something to tell us of these children of the forests who held undisputed sway for centuries over the richest portion of God's footstool but left it as they found it and as they were—savage and untamed. The Spaniards were the first to lay claim to the territory of which Iowa was a part. In 1542 De Soto leading a band of Spanish cavaliers came fighting, hungering, toiling, sick and discouraged, pressing through forest and swamps to the Great River and in accordance with the custom of the times took possession of it and all that touched it in the name of the sovereign of Spain, but it was many decades ere the Indian was disturbed from his dreams, his hunts, his fishing or his fighting by the pale face.

In 1673 the French governor of Canada, Frontenac, sent Joliet a fur-trader to discover the Grand River. He was joined at Michilimackinac by Father Marquette and together with a few companions they sailed and floated down stream to a point about where the Des Moines empties into the Mississippi, where seeing indications of Indians they left their companions and followed the trail until they came to the camps of the red men, where they remained for a few days, the Father explaining to them the gospel and Joliet impressing

#### DIRECTORY OF AUDUBON COUNTY

10

the facts of the new sovereignty of his country and king. They proceeded on down the river and on their return Joliet gave to the governor a map of the region.

The next bold explorer was La Salle who obtained from his king Louis the Great, permission to explore the west and right to govern the same. With Tonty, an Italian soldier as his chief companion, he started on his journey. It took them two years to reach the Mississippi, as they built a line of forts across the country. His supplies then being short he went back to get a new supply and after untold suffering got back to the Illinois country. Tonty was gone but he afterward found him and together they sailed down the Illinois river into the Mississippi and proceeded to its mouth. The ceremony of taking possession is best told by La Salle. "We continued our voyage until 6th (April) when we reached three streams by which the river (Mississippi)..., empties into the sea.... The..., mouths being found noble, wide and deep,..., we prepared a column and a cross, and on the column we painted the arms of France with this inscription: 'Louis the Great, King of France and Navarre, reigns; April 9, 1682.' "All standing under arms, we sang the Te Deum. Then after firing off our guns and shouting, "Long live the King!" M. de la Salle put up the column and .... said in a loud voice .... "In the name of the most high, powerful, invincible and victorious Prince Louis the Great, by the grace of God, King of France and Navarre. I....have today taken possession of this land of Louisiana, its seas, havens,.... bays,....with all the nations, peoples, provinces, towns,...mines, minerals, streams and river....along the rivers....Mississippi and the rivers which flow into it, from its source to the country beyond the Sioux....as far as its mouth at the....Gulf of Mexico....upon the assurance that all these people have given us that we are the first Europeans, [who have come into these lands]." To which every one answered by cries of "Long live the King!"....[Then he erected the cross), before which we sang, "The Banners of Heaven's King Advance," and the ceremony ended with cries of "Long live the King!"

Following close upon this was the settlement on the Illinois river in Illinois, which was later moved to Kaskaskia which is known as the oldest settlement in the Mississippi Valley but it was at least a half century later before a log cabin was piled in what is now Iowa.

At the close of the French and Indian wars with the treaty of peace at Paris in 1763 France ceded all her territory west of the Mississippi to Great Britain which country in turn by secret treaty ceded all the territory claimed by France to Spain. This included lowa.

Spain had more territory than she could well look after and never utilized her great empirial territory only to collect heavy duties on

Life Insurance Protects Your Family, M. O. Roland, Harlan, Iowa

### BRIEF HISTORY OF 10WA.

traffic up and down the river. When the colonists rebelled against the mother country and proved by force of arms her ability to take her place in the sisterhood of nations, Great Britain ceded to the new government all the territory east of the Mississippi river and north of the 31st parallel, north latitude, the balance going to Spain. This still gave her control of the mouth. History tells us that Spain then tried to bribe the states west of the Alleghanies to secede by offering greater commercial privileges, grants of land and free navigation of the Mississippi which they rejected. Again however in 1801 was the territory of Spain ceded to France and our government decided to get a better treaty privilege than they had held.

## LOUISIANA PURCHASE.

With long sighted statesmanship President Jefferson said of New Orleans: "There is on the globe one single spot the possessor of which is our natural and habitual enemy. It is New Orleans, through which the produce of three-fourths of our territory must pass to market; and from its fertility, it will ere long yield more than half of our whole produce, and contain more than half of our inhabitants." To secure the right to navigate the Mississippi, the House of representatives on January 8, 1803, passed a resolution declaring the "unalterable determination to maintain the boundaries and rights of navigation and commerce through the River Mississippi as established by existing treaties." President Jefferson immediately nominated Robert R. Livingston, James Monroe and Charles Pickney as envoys plenipotentiary to the court of France to carry out the purpose of the revolution. There is nothing to show however that there was any intention on the part of congress or the president and his cabinet to form other than treaty relations. Napoleon Bonaparte however was occupied in subduing the countries of Europe and his treasury was depleted. He needed money and wanted to sell the territory but he had another reason; as he said, "This....territory strengthens forever the power of the United States; and I have just given to England a martime rival that will, sooner or later, humble her pride." When our envoys broached the subject of treaty relations at New Orleans to the prime minister that courtly and wiley diplomat, Talleyrand, slyly suggested that France might be induced to turn over all her American possessions and cooly asked what the United States would pay. Surprised but equal to Talleyrand's diplomacy Livingston cautiously said the United States might be induced to pay \$4000,000. The prime minister thought this too small but begged the envoys to think it over. In a few days they were given audience to Napoleon who offered them the entire domain of Louisiana including the control of the Mississippi. After some bartering our envoys agreed to pay \$15000,-000 and on this basis the treaty was concluded April 30, 1803, and the

12

United States extended from Mexico to Great Britain and from ocean to ocean, while had not Livingston been able to see as he said to Marbais on signing the treaty, "We have lived long, but this is the noblest works of our lives. The treaty which we have just signed... will change vast solitudes into flourishing districts. From the day the United States take their place among the powers of the first rank," we might still be penned up east of the Mississippi.

## TERRITORIAL GOVERNMENT.

On the 20th day of March 1804, after the United States had become the possessor of this vast tract of land, Congress provided that the part lying north of the thirty-third parallel should be organized into a district and attached to the territory of Indiana for governmental and judicial purposes. The name of District of Louisiana was given to it. July 4, 1805, it became a part of the Territory of Louisiana with the capital at New Orleans. It remained thus until 1807 when for a brief period Iowa was attached to the territory of Illinois for judicial purposes On June 4, 1812, it became part of what was then organized as the Territory of Missouri and remained thus until July 19, 1820, when Missouri became a state. At that time lowa with other territory was detached and forgotten and was without a government, judicial or political until out-lawing and crime became so prevalent that in 1834, June 28th, it was included in a part of the territory of Michigan. July 30, 1833, Iowa was formed as part of the newly organized territory of Wisconsin, including the present states of Wisconsin, Iowa and Minnesota and the eastern part of North and South Dakotas. July 12, 1838, the Territory of Iowa was organized including Minnesota and parts of North and South Dakotas, and Robert Lucas, a wise and fearless man was made the first territorial governor. December 25, 1846, Iowa was enrolled as part of the great sisterhood of states.

#### INDIAN HISTORY.

While the white man was evolving and adjusting laws and territories to the fast settling districts, and civilization was marching westward with steady but sure tread, the original owners, by right of possession and inheritance were living their simple savage life, fighting neighboring tribes and following the natural bent of their inclinations. The earliest settlers found those of the tribal names of Sioux, Sac, Fox and Iowa the most formidable and contentious for the hunting grounds of their forefathers and they are the best known in history. By treaties and purchase the Indian was gradually pushed westward until in 1870 there was but 406 Indians in the whole state of Iowa. The various tribes were divided into families or claus but

.

The second secon

And the second of the second o

t part of the second

all recognized a chief, many leaving names that will never be forgotten. Black Hawk, Keokuk, Tama, Mahaska, Osceola, Appanoose and Poweshiek are among the list of these illustrious leaders. The most well known and among the last treaties was known as the Black Hawk purchase in 1832, and was from the Sacs and Foxes comprising a strip of land on the eastern boundary of Iowa fifty miles wide, from the northern boundary of Missouri to the mouth of the Upper Iowa, containing nearly 6,000,000 acres of land for which the government agreed to pay \$600,000 in thirty annual payments, besides paying debts for \$50,000 due Indian traders. These tribes at last in 1843 relinquished their rights and removed to Kansas leaving their hunting ground and their childhood homes to blossom in civilization.

#### EARLY SETTLEMENTS.

The early founders of our government, always watchful and far seeing by their Ordinance of 1787, promising liberty, freedom and education in the northwest opened it to actual settlers. Lead had been discovered by the Indians and in 1788 Julien Dubuque, a Frenchman, and a native of Canada and a resident of Prarie du Chien purchased of the Fox Indians the right to occupy a tract of land covering where the present city of Dubuque now stands. In 1796 the Spanish governor at New Orleans confirmed this grant. Dubuque operated the mines with ten white men calling them the Mines of Spain, in honor of the governor. He married a Fox Indian squaw and became a man of wealth and influence. He died in 1810 a victim of his own vices. The town he commenced was platted and approved by act of congress July 3, 1836. His land went back to the Indians after his death.

Other settlers followed fast after Dubuque. Louis Honori settled at the present site of Montrose in 1799. His property however soon passed into other hands. In 1795 Basil Girard, a Frenchman, was granted a tract of land of 5000 acres known as the "Girard Tract." He held this through the Spanish, French and American ownership and was finally granted a patent by the United States.

The first attempt at civil government as far as history shows came to naught. Some white, lead miners from Galena, Illinois, went across to Dubuque and obtained permission of the Indians to work the mines. At a general meeting rules were passed for the government of the colony and Dr. Jarote was elected to execute the laws made. But as the land still belonged to the Indians the government ordered them off and Col. Zachary Taylor, military governor of the territory, executed and carried out the order. The treaty with the Indians however extinguished their title and about five hundred people settled in Dubuque in 1833. They immediately proceeded to erect the first school house and opened the doors of civilization and future great-

to the in the late

the state of the s

ness. The original town of Burlington was laid out in about 1834 and several others at about the same time. Col. George Davenport took up his claim and made the settlement at about the close of the Black Hawk war,

## NOTES ON EARLY HISTORY,

The first counties created in Iowa were Dubuque and Des Moines, in 1834. They were separated by a line drawn westward from Rock Island.

The first postoffice was established at Dubuque in 1833, with Milo H. Prentise as postmaster.

The first justice of the peace was Antoine LeClaire, appointed in 1833.

The first Methodist society in the territory was formed at Dubuque, May 18, 1834, and the first class meeting was held June 1, of that year.

The first church bell brought into Iowa was in March, 1834.

The first mass of the Roman Catholic church in the territory was celebrated at Dubuque in the house of Patrick Dingley, in the fall of 1833.

The first school house in Iowa was erected by miners at Dubuque in 1833.

The first Sabbath school was organized in Dubuque early in 1834. The first newspaper in Iowa was the Dubuque Visitor, issued May 11, 1836. John King, afterwards Judge King, was editor, and

William C. Jones was printer.

The first meeting house was built by the M. E. church at Dubuque in 1834.

Gen. George W. Jones, of Dubuque, was elected as the first delegate to congress from this part of Michigan territory in 1835.

The first census of Iowa was taken in 1836, and showed a population of 10,531 in the two counties which included the Black Hawk purchase.

The first election to choose members of the assembly and council of the territory of Wisconsin, of which Iowa was then a part, was held the first Monday in October, 1836.

The first legislature of the territory met at Belmont, Wisconsin, Oct. 25, 1836; the second assembly at Burlington, Nov. 10, 1837.

#### EARLY POLITICAL HISTORY.

On the 12th of June, 1838, congress passed an act providing "that from and after the 3d day of July next, all that part of the territory of Wisconsin that lies west of the Mississippi river, and west of a line drawn due north from the head waters or sources of the Mississippi to the territorial line, was for temporary purposes constituted a

Life Insurance Is An Investment, M. O. Roland, Harlan, Iowa

separate territorial government and called Iowa." The President of the United States was to appoint the Governor, Secretary, Chief Justice, two Associate Justices, a United States Attorney and a Marshal. Five thousand dollars was given to establish a public library and twenty thousand dollars for the erection of public buildings. President Van Buren appointed Ex-Governor Robert Lucas, of Ohio, Governor; Wm. B. Conway, of Pittsburg, Pa., Secretary: Chas. Mason, of Burlington, Chief Justice, and Thomas S. Wilson, of Dubuque, and Joseph Williams, of Pennsylvania, Associate Judges.

The first official act of the new governor was to call the legislature to meet in September but they did not convene until November 12th, at Burlington. The first assembly was composed of young and enterprising men who afterward became prominent in the affairs of the state, but their first acts were mostly quarrels with the governor. Party politics was little observed in this first assembly although most of them were democrats. The president of the council and speaker of the house however were both republicans. Wm. W. Chapman was the first delegate elected to congress.

Among the first duties of the new legislature was the selection of the location of the state capital and a penitentiary. The committee selected Ft. Madison for the penitentiary. There was a spirited contest between Johnson and Henry counties for the capitol buildings. May 11, 1839, the commissioners met at Napoleon in Johnson county and selected a site, had it surveyed and platted and called it Iowa City and a contract for \$51,000 let for the construction of buildings. On December 6, 1841, the fourth territorial assembly met in their new buildings which though were never completed.

A delegate convention was called to form a constitution and one was agreed on the 7th day of October, 1844, which was duly forwarded to congress by Hon. Shepherd Leffler, their delegate, and approved by that body. Congress passed an act in 1845 making Iowa a state but as it changed the boundary on the north and west the people rejected it. These objectionable features were remedied the following year and on December 28, 1845, Iowa became a state. The first officers of the new state were: Ansel Briggs, Governor: Elisha Cutler Jr., Secretary of State; Joseph Fales, Auditor; Morgan Reno, Treasurer. Only twenty-seven counties had organized at this time and the population was about one hundred thousand.

## PERMANENT LOCATION OF CAPITAL.

At the first meeting of the state legislature the subject of moving the state capital farther west came up and was the cause of much heated debate throughout the state. A commission was appointed to look up a new site and they entered upon their duties immediately. The first place selected was in Jasper county where the present town

## DIRECTORY OF AUDUBON COUNTY

16

of Monroe now stands. This was at first accepted by the assembly and afterward rejected. In 1855 a bill was passed locating the capital where it now is. The assembly met there in the temporary state house, and on the 19th day of October, 1857, the governor declared it to be the capital and everything was soon transported there. According to the bill of 1847 the state building went for school purposes and the State University founded. By 1870 the old quarters were insufficient and a bill was passed appropriating about \$2,000,000.00 for the erection of new ones, the corner stone of which was laid with appropriate ceremonies November 23, 1871.

#### DEVELOPMENT.

Now that the great commonwealth was fairly launched her development was marvelous. In the first ten years after 1850 the population trebled, jumping from 192,214 to 674.913. If a reason be asked for this it could be accredited to the new railways spanning from east to west with their steel rails. The statesmen of the day recognizing these as great public benefactors, the congress of 1853 passed an act granting land to roads that have since been closely followed by the C. B. & Q., the C. R. F. & P., the C. & N. W., and the I. C. roads. Every other section in a strip of land twelve miles wide was given on either side from the Mississippi to the Missouri river. From 1860 to 1870 regardless of the drain of the civil war, the population increased by at least half a million. The following table shows the population from 1840 to 1900:

1840	43,112   18	880	1.624,615
1850	192,214 1	885	1,753,980
1860		890	1 911 896
1870	1.174.020 + 13	895	2.058.069
1875	1.350.491	900	2 231 853

#### WAR RECORD,

No veteran of Towa blushes at the record made by her soldiers of the great civil war or of the Spanish-American war. A week had not passed after the first call to arms in the Civil war until a regiment was formed and two more ready for service and had offered their service to their country. By the end of 1861 so many companies had offered their services that all could not be used. In all, Iowa furnished forty-eight regiments of infantry, nine regiments of cavalry and four batteries of artillery. The 60th U. S. were Africans and did some noble work against the enemies of the union. The total number furnished by the state was over 78,000 besides 500 or more state militia or home guards. Among the regiments whose history shines bright on many fields Iowa takes front rank. Thousands of her troops worked in rain and mud and helped to celebrate the fourth

Life Insurance Protects Your Family, M. O. Rolond, Harlan, Iowa

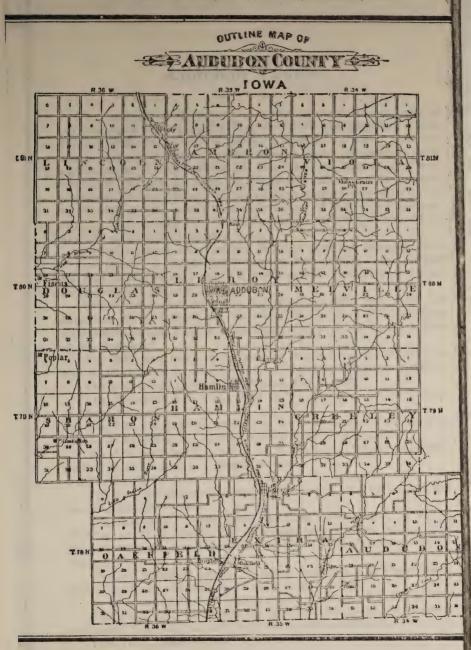

## BRIEF HISTORY OF IOWA.

within the walls of Vicksburg. They charged many bloody fields, they helped at Shiloh, they marched with Sherman, and served honorably and voluntarily.

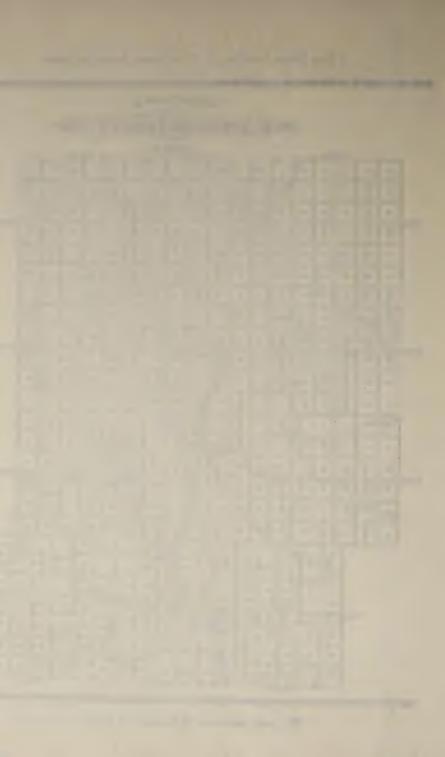

In our recent troubles with Spain, Iowa furnished four regiments, although but two ever saw active service. The 49th went to Cuba and did guard duty after peace had been declared. The 51st went to the Philippines where it saw hard service. It was introduced to the Philippines at Quinga where one of the sharpest engagements was had that the volunteers ever participated in. They returned to the United States in September, 1899, and were discharged at Presidio, San Francisco, California.

The following is a table of the casualities during the civil war:

	Officers	Privates	Total
Killed in action	_ 135	2017	2152
Killed accidentally	2 .	78	20
Died of wounds	88	1199	1287
Died of disease	115 .	8695	8810
Died by suicide	0	8	8
Died by drowning	2	109	- 111
Discharged for disability	51	8005	8056
Discharged cause unknown	80	1982	2062
Wounded in action	. 573	8282	8855
Wounded accidentally	8	112	120
Captured	241	4459	4730
Missing	0	115	115

The best contract—Equitable of Iowa.

## Audubon County.

The residents of the county look with pride at the agricultural and industrial development it has shown in the past four years. Everything figured, Audubon county is now worth more than the whole Louisana purchase, of which it was a part. There seems to be a great bridge of time between the time when the first settlers were reclaiming her prairies from the virgin soil and now, that the new generation cannot realize. All its people are acquainted with its soil and we will pass to some of the early events of the county, acknowledging the assistance of John T. Jenkins, H. S. Wattles, Hon. H. F. Andrews and others in securing data.

Audubon county was organized by order of Judge Benedict, then of Cass county, in the spring of 1855, the first election being ordered and held April 2, of that year. It was named for the naturalist, John Janie Audubon, who died that year.

The first actual settler was Nathaniel Hamlin, who with his daughter, Mary, staked out his claim in March of 1851. He then went back east and John S. Jenkins moved in with his family in May of the same year.

The first deed was a conveyance of thirty-five acres of land by Samuel B. Hopkins to John S. Jenkins for the consideration of \$100.

The first village platted was Dayton, July 9, 1855.

The first child born was a child to Mr. and Mrs. Arthur Decker in December, 1851.

The first marriage recorded was that of George L. Kellogg to Susannah Kingon April 16, 1856, Urbane Herrick officiating.

The first log'house was raised by N. Hamlin in the spring of 1851, on Section 35, Township 78, Range 35, west.

The first frame barn was put up by Bry Milliman, July, 1857.

The first newspaper was issued in December, 1860, and called the Audubon County Pioneer.

The first school house built was a log building put up by N. Hamlin and D. M. Harris, who furnished nine children for it. Miss Ellen Northgrove, who became the wife of Albert Wakefield, was the teacher. It was a private school.

The first postoffice was at Nathaniel Hamlin's, who was commissioned postmaster by Zacharias Taylor in 1853, October 1.

D. E. Soar was the first harness maker, who located in Exira, 1870. The tax in 1858 was Gounty tax four mills; State tax one and one-half mills; Road tax one mill; in all eight mills on the dollar.

Hon. H. F. Andrews built the first brick building, the office he now occupies in Exira.

IS AT THE HEAD OF MY HERD FOR 1904 PIGS:::::

A NYONE who is interested in improving their stock of swine will certainly find something of value in my herd. No matter whether you need a male or female or of what age, write and descriptions will be furnished carefully. I pride myself on being an up-to-date breeder of Chester White Swine, always buying where I can get the best. I strengthen my stock each year by adding such stock (both males and females) as G. A. Mikesell, of Poweshiek county, is known to have, also G. T. Smith, of Keswick, Iowa, and I have some extra fine ones this year whose dams I purchased from the Chester Ridge of Chester White Swine owned by J. Morris & Son, of Tontezuma, Ia. Goods Guaranteed. Prices Reasonable. Descriptions Carefully Given. Correspondence Solicited. : : : : :

When you want anything in Drugs, Druggist's Stationery, Books, Wall Paper, Paints, Oils, in fact anything contained in a first-class drug store, do not fail to give us a call. You will find our goods right. Your Prescriptions always solicited.

F. W. Smith

Telephone 34,

Exira, Iowa.

## Directory of Audubon County.

## Key to Directory.

NAMES-All names are alphabetically arranged, each town and township in a

separate department.

LOCATION—Residents in the country are located on the quarter-section where they reside, the quarters being denoted by the letters ne, nw, se, sw, and the sections by figures from 1 to 36. By this system, in connection with the county map, the approximate location of every resident outside of the towns can be found. For example, under the head of Audubon township, "Anderson, A., Exira, ne 12." indicates that Mr. A. Anderson resides in the northeast quarter of section No. 12 in Audubon township, and that his postoffice address is Exira. The map shows all roads by which this or any other vicinity-may be reached. The terminal figures 1, 2, 3, etc., indicates the number of the Rural Free Delivery Route.

Occupation—The occupation of each person is stated in the towns. The postoffice address where each resident of the county receives his mail is given.

Acres Owned—The last column in the township departments gives the number of acres owned by each person. The blanks indicate the persons are not land owners in the locality where the reside. LOCATION Residents in the country are located on the quarter-section where

## Townships and Minor Towns Alphabetically Arranged

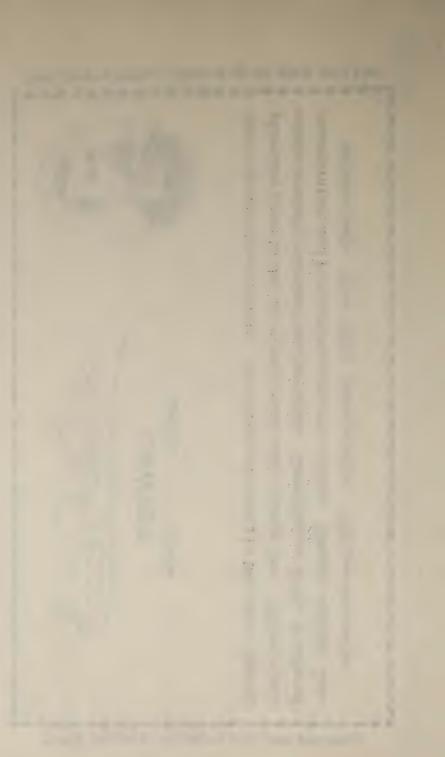

The towns of the county will be found immediately following the township in which they are situated.

# S. A. MCHARGUE

Agent for

### The J. R. Watkins Medical Company

S. A. McHargue, traveling salesman in Audubon and Shelby counties, for the J. R. Watkins Medical Co., located at Winona, Minn. The largest medical company in the world, covers 87,000 square feet (over two acres) floor space; employes 400 agents on the road; has over 65 different articles, consisting of Watkins' Remedies, Extracts, Spices and Toilet Articles. Over six times around the globe. If you could only

see the vast number of farmers who use Watkins' Remedies, think what an army it would make! If every patron of Watkins' Remedies was located on a quarter section of land, and their farms were joined together, there would be enough to go six times around the entire globe at the equator and leave a strip long enough to reach from Maine to California besides. If you are not one of these farmers who use Watkins' Remedies, improve the opportunity by patronizing me when I call on you again. Don't take our word for it. Watkins' remedies are sold on trial. No hurry, no worry, no flurry. You never know what will happen. Always be prepared as far as possible for accidents. Many people have learned that it is never safe to be without a good supply of Watkins' Vegetable Anodyne Liniment.

Watkins' Dyspepsia Tablets cures Dyspepsia, Indigestion, Biliousness, Nausea. Did you ever wake up in the night? Such a tickling in your throat? This is the warning that nature sounds when something is going wrong inside. It is the time when a bottle of Watkins' Cough Cure will put you back into shape and save you a big doctor bill.

Watkins' Kidney Tablets are curing many cases of kidney troubles every day. Health insurance. You insure your house against fire. You insure your life for the benefit of you family. Why not insure the health of your family and stock against disease by laying in a full supply of Watkins' Remedies.

Watkins' Extracts and Spices are the best ever known. They have no equal.

Watkins' Compound Extract of Sarsaparilla. The great blood medicine. It is good at all seasons, but especially in the spring. You come out of the winter feeling run down. Watkins' Sarsaparilla makes you feel as good as new. Watkins' is the best. Try it for results.

It is like putting money in the bank to spend it for Watkins' Remedies. Your living depends on what you make out of your farm. One of the most important items is stock. To be profitable your stock must be healthy. To prevent discuse and keep your stock in prime condition there is nothing as good as Watkins' Pabular Stock Food.

The Trumpet sounds. Awake the sleepy soldiers and send them on their way. Will you be ready to take up your work when the trumpeter called "Opportunity" summons you? You will want good health to get the best out of life, and good health comes only by being ever on guard. Watkins Gen-de-can-dra for the blood will help you prepare for the fight of life.

Something for children. For young as well as the old. Watkins' Lax-tone. A mild tonic liquid laxative medicine for constipation, costiveness and diseases of the stomach, liver and bowels. Its harmless nature, exceedingly pleasant taste, and mild but certain action make it valuable alike to young and old. Children will take it willingly when the can't be made to take other medicine.

Mail orders promptly attended to.

Residence south part of Audubon. 'Phone 144. Box 311.

Dunoi, Lunione					

FOR A SICK HEADACHE.—Take one tablespoonfull of baking soda and dissolve it in half a tumbler of water; into this pour the juice of half a lemon and drink while effervescing. Nearly always, headache may be relieved by applying heat to the feet. To lie down and put one's feet against a hot bottle will often cause one to fall asleep and to wake up feeling relieved.

APPLES eaten daily insure clear, bright complexions.

A FEW DROPS OF CAMPHOR in a glass of tepid water used as a gargle tend to sweeten the breath.

WHEN THE HANDS ARE VERY DIRTY rub them over thoroughly with a little lard, to loosen the dirt, before washing them with soap and water, keeping the skin soft and smooth.

FOR WARTS AND CORNS use castor off. An application of the oil twice daily will bring about a cure in a period of a fortnight to six weeks.

BITES OF INSECTS are relieved by touching the spot with a drop of ammonia. It neutralizes the poison and soothes the pain.

BATHE A SPRAINED ANKLE at once in hot water for ten minutes. If the pain be very severe, apply a bran bag dipped into hot vinegar.

To Preserve White Lace, keep it in a box, and before putting it away sprinkle it thoroughly with magnesia. When the lace is needed again this can easily be shaken out.

A RAW POTATO will remove mud stains from black clothes. It should be cut in half and rubbed on the marks.

WATERPROOF AND SQUEAKING BOOTS.—To make leather boots waterproof, saturate them with caster oil; to stop squeaking. drive a peg into the middle of the sole. White of egg brushed over morocco leather freshens it.

IF THE BUTTONHOLE of a stiff collar be slightly moistened, the difficulty of inserting the collar button will be obviated.

MEND BROKEN CHINA with plaster of paris, which should be mixed with the white of an egg. Uhina mended with this mixture will stand wetting.

To Restore Shabby Velvet.—Mix two tablespoonfuls of liquid ammonia with half a pint of hot water and apply it to the velvet with a stiff brush, so as to take out all the stains and creases. Then hold the velvet over a hot Iron until the steam raises the pile.

Cut Glass, Solid Silver and Fine Jewelry, W. H. Cowles, Audubon

I sell lowa and Dakota land. I would like to find you a farm if you want to buy, or a customer if you want to sell. I make a specialty of exchanges. If you have anything to trade list it with me, I will find the other fellow. References--The people with whom I have dealt for over twelve years. I represent the Continental Life and Accident Insurance Co., of Des Moines, lowa. The best insurance you can buy is that which protects your time. Call and see me. J. O. HOWARD, Exira, lowa.

### MRS. A. SPOO'S BAKERY

Fresh Bread, Pies, Cakes, Cookies, Candies. Oysters, Ice Cream and Tobaccos. Your patronage solicited

## Peterman @ Voss

Contractors, Planing Mill, Wagon Makers. All kinds of Repair Work, Upholstering and Manufacturing. Shop one door south of E. D. Cotton's, Exira, Iowa.

### DISTRIBUTION OF THE PROPERTY O

Paint can be easily removed from glass by wetting a copper or silver coin and rubbing the paint with it.

To Erase Finger Marks from polished furniture, rub with a chamois leather moistened with vinegar and water. Afterwards polish.

WASH CANE-SEATED CHAIRS on the underneath side only.

To Sweep Carpets.—Tea leaves should be pressed tightly after they have been used and put aside to sprinkle over the carpet just before sweeping. They brighten the carpet and prevent the dust from flying and soiling the furniture and paper; or once a month use corn meal, which revives the colors and effectually lays the dust. In sweeping, each week dip the broom in water, shake it well and then sweep, but the broom must be clean, or a muddy appearance is the result.

MATTING should be washed with salt and water and wiped dry at once with a coarse flannel cloth. If the matting is dirty whitewash it with a weak solution of soda, which will turn it a creamy shade. Never scrub a matting.

USES TO WHICH SALT MAY BE PUT.—Salt puts out a fire in the chimney. Salt in the oven under baking tins will prevent their scorching on the bottom. Salt and vinegar will remove stains from discolared teacups. Salt and soda are excellent for vinegar will remove stains from discolored teacups. Salt and some are excellent for bee stings and spider bittes. Salt thrown on soot which has falten on the carpet will prevent stain. Salt put on ink when freshly spilled on a carpet will help in removing the spot. Salt in whitewash makes it stick. Salt thrown on a coal fire which is low will revive it. Salt used in sweeping carpets keeps out moths. Salt used in washing the hair will prevent the hair from falling out. A teaspoonful of salt in a lamp will make kerosene oil give a brighter light. Salt added to a bucket of water forms a remarkably effective fire extinguisher. A handful of rock

sait added to the bath is the next best thing to an ocean dip. Damp sait will remove the discoloration of tea and the like in dishes that have been carelessly washed. New calicoes soaked in a strong solution of sait for an hour before washing will retain their colors better. As a dentrifice salt and water will not only cleanse but whiten the teeth, and will harden the gums. When broiling steak a pinch or two of salt thrown on the tire will quench the flames arising from the dripping fat. A weak solution is good for sore throat, to be used as a gargle, and this is still better if a few grains of red pepper are added. Ink stains may be removed by the use of moistened and their properties of the stains may be removed by the use of moistened and their properties. When it becomes discolored remove it and use a fresh supply until no color remains.

A Newspaper wrung dry from water, torn in bits and scattered over a dusty carpet prevents a swirl of dust, cleans the carpet and shortens the process of sweeping.

NEVER LEAVE A SPOON IN A SAUCEPAN if you wish the contents to cook quickly. for the spoon is the means of carrying off a good deal of heat.

LUNCHEON MUFFINS (by Miss Parloa).—For one dozen muffins use one pint of flour, a generous half-pint of milk, two teaspoonfuls of baking powder, half a teaspoonful of soft, two tablespoonfuls of sugar, three tablespoonfuls of butter and two eggs. Mix the dry Ingredients together and rub through a sieve. Melt the butter. Beat the eggs till light and add the milk to them. Add this mixture to the dry ingredients; then stir in the melted butter. Beat the batter vigorously for a few seconds and then put in buttered muffin pans and bake for about 20 minutes in a guick oven. quick oven.

## We do a General Merchandise Business

on square principle. Handle Produce, carry Queensware, have Bargains at lowest possible prices.

## Brockway & McCall

In Hoover Building, opposite P. O., Audubon.

Baking Powder Biscurr.—Sift with one quart flour, two teaspoonfuls baking powder and one-half teaspoonful salt. Rub in shortening (butter and lard mixed) the size of an egg, and wet with enough sweet milk to make soft dough. Handle as little as possible and roll out about one inch thick. Cut the desired size and bake twenty minutes. Do not have the oven too hot at first—increase the heat.

CGRN-MEAL PANCAKES.--Take two cups of Indian meal and a teaspoonful of salt; pour over it boiling water to make a batter. Let it stand until cool, and add the yolks of three eggs beaten, flour to make the proper consistency, one and a half teaspoonfuls baking powder. Just before baking add the whites of the eggs beaten stiff.

Pumpkin Pie.--One pint of stewed pumpkin, two or more eggs, sweeten with molasses and sugar to taste, one pint of rich milk, or cream, which is better. A little saft, season with cimmon or nutmeg, and ginger also if liked, stir well together and bake with one crust only, in a deep pie dish and in a quick oven.

Tomato Soup.—One quart of tomatoes, one quart of milk, one pint of water; boil water and tomatoes together 20 minutes, then add the milk, and one teaspoonful of soda. Season as you would oyster soup, with butter, salt and pepper. Rub through a columber into a tureen.

FIGED OYSTERS.—Take Count oysters, drain them from their liquor, and dip them first in beaten egg and then in rolled cracker, and fry in a spider or on a griddle in hot butter and lard (equal parts.)

BEEF HASH.—Chop fine cold steak or roast beef, and cook in a little water; add cream or milk, and thicken with flour, season to taste, and pour over thin slices of toast.

VEAL LOAF.—Three pounds of raw yeal cutlet chopped fine, two slices of salt pork chopped, two eggs. three terspoonfuls of salt, one of pepper, two slices of bread crambled fine, one-half cup of cream or milk. Make into a loaf, dredge with flour and bake three hours. It is nice to put hard boiled eggs through the loaf.

RABBIT PIE.—Line a deep dish with a puff paste or rich biscuit crust; stew the rabbit, season well and pour into the dish; cover with an upper crust and bake.

## Cedar Ridge Farm

Registered Duroc-Jersey Swine. Best of blood, good length, heavy bone and best of color. Stock for sale at all times. Correspondence solicited and inspection invited. Telephone connections. R. F. D. 2

Repairing all kinds of Jewelry, Watches and Clocks quickly and neatly done. Satisfaction guaranteed.

F. M. THARNISH, Audubon

WAFFLES.—One quart sweet milk, three teaspoonfuls baking powder mixed in flour enough to make stiff batter, one cup metted butter, six eggs, whites and yolks beaten separately and whites added last. Salt. Bake at once. Can be made with fewer eggs, but are delicious with the quantity named in the recipe.

EGG ROLLS.--Two eggs well beaten, one small teacup of milk, one tablespoonful lard or melted butter, two teaspoonfuls baking powder, and enough flour to make as stiff as biscuit. Roll out, cut the desired size and bake in hot oven.

SOFT GINGERBREAD.—One cup molasses, one-half cup sugar, one-half cup butter, one-half cup sweet milk, two eggs, one tablespoonful ginger, one teaspoonful all-spice, two cups flour sifted with one and one-half teaspoonfuls baking powder. Bake in shallow pan, or small pans.

MARBLED CHOCOLATE CAKE.—One-half cup butter and one cup sugar beaten to a cream, one-half cup sweet milk, and one and one-half cups flour, one teaspoonful baking powder, whites of four eggs added last. Take one cup of this mixture, add to it five tablespoonfuls grated chocolate wet with milk and flavor with vanilla. Put a layer of white batter in cake pan, drop the chocolate batter with a spoon in spots; pour over the remaining white batter and bake. Ice with chocolate icing.

NUT CAKE.--Mix two cups of sugar and one-half cup of butter together; add four eggs beaten to a froth, one cup of sweet milk, two teaspoonfuls of baking powder sifted in three cups of flour, two cups of hickory nuts not chopped. Flavor with vanilla.

JOHNNY CAKE.—One pint of sour milk, or buttermilk, one egg, three tablespoonfuls of flour, one teaspoonful of salt, one teaspoonful of soda dissolved in hot water, one tablespoonful sugar, mix the egg, milk and flour, and add enough meal to make a thick batter, and finally add the salt and soda. Beat very rapidly and bake quickly and steadily.

POTATO BALLS OR CROQUETTES.—Four large, mealy potatoes, cold, mash them in a pan, with two tablespoonfuls of fresh melted butter, a pinch of salt, a little pepper, one tablespoonful of cream, and the beaten yoke of one egg; rub it together for about five minutes or until very smooth; shape the mixture into balls about the size of a walnut, or small rolls, dip them into an egg well beaten, and then into the finest sifted bread crumbs; fry them in boiling lard.

CODFISH ON TOAST.—Soak a cupful of shredded codfish in cold water for an hour; let it come to a boil drain through a colander; turn into the skillet again with a little cold milk; season with butter and pepper, stir smooth a tablespoonful of flour with a little cold milk; add, and let it boil for a moment; pour over buttered toast on a platter.

BEEF LOAF.—Three pounds of raw beef chopped fine, one slice of pork chopped, three soda crackers rolled fine, one egg, one-half cup of milk, one tablespoonful of melted butter, one tablespoonful of salt, one teaspoonful of pepper. Mix well together, pack into a tin and bake two hours.

FLOATING ISLAND.--Beat the yolks of three eggs until very light; sweeten and flavor to taste; stir into a quart of boiling milk; cook until it thickens; when cool, pour into a low glass dish; whip the whites of the egge to a stif froth; sweeten, and set over a dish of boiling water to cook. Take a tablespoon and drep the whites on top of the cream, far enough apart so that the "little white islands" will not touch each other. By dropping little specks of bright jelly on each island a pleasing effect will be produced.

Grandma's Baked Indian Pudding.—One quart of milk, seven tablespoonfuls of Indian meal, one cup of molasses, one-half teaspoonful of salt. Put the milk in a kettle; when scalding hot stir in the meal which has been wet with a little cold milk. Take from the stove and add the molasses, the salt and half a cup of cold milk. Two tablespoonfuls of chopped suet make it richer. Bake two hours in a moderate oven.

ICE CREAM.--One quart of cream, one quart of milk, two eggs, one pound of sugar, two teaspoonfuls of vanilla. Seald the milk, sugar and eggs together until it thickens; strain and set aside until cold. Whip the cream and beat into the custard thoroughly; add the vanilla and freeze. If not sweet enough add more sugar. Equal parts of vanilla and lemon extract make an excellent flavoring.

## DR. J. M. RENDLEMAN,

#### Physician and Surgeon

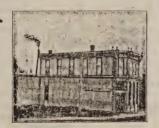

Office over E. D. Cotton's Store, Exira, Iowa.

SWEET SHORTCAKE.--Beat a lump of butter size of an egg to a cream, add one cup of sugar, two eggs. whites and yolks beaten separately, one cup sweet milk, one and one half teaspoonfuls baking powder, and flour enough to make as stiff as cake. Bake in two jelly tins, and spread mashed sweetened strawberries between layers, and on top whole berries with sugar sprinkled over them. Serve with mashed berries sweetened.

ORANGE CREAM CAKE (by Mrs. Lemcke).--One half cup butter, one cup sugar, one-half cup milk, one and one-half cups flour with three-quarters of a teaspoonful baking powder. Stir butter and sugar to a cream, beat three whites of eggs to a stiff froth and add them to the sifted flour and powder, with the milk, alternately, to the creamed butter and sugar. Bake in two equal good-sized jelly tins.

Delicious Peach Pudding.—Fill a pudding dish with whole peeled peaches, and pour over them two cups water. Cover closely, and bake until peaches are tender, then drain off the juice from the peaches, and let it stand until cool. Add to the julee one plut sweet milk, four well beatten eggs, a small cup flour with one teaspoonful baking powder mixed in it, one cup sugar, one tablespoonful melted butter and a little salt. Beat well three or four minutes, and pour over peaches in dish. Bake until a rich brown, and serve with cream.

### CITY STEAM LAUNDRY C. H. Stocking, Proprietor

Our aim is to do good work. Do all kinds of work. We use all due care, but will not be responsible for shirts with silk fronts. All mistakes must be reported within 24 hours and accompanied by list. Goods called for and delivered free. Goods not called for in 30 days will be sold for charges.

SHINGLES REQUIRED IN A ROOF.—To the square foot it takes 9 if exposed 4 inches; 8 if exposed 4½ inches, and 7 1-5 if exposed 5 inches to the weather. Find the number of shingles required to cover a roof 38 feet long, and the rafters on each side 14 feet. Shingles exposed 4½ inches. 28x38=104 (sq. ft.) x=8.512 shingles.

Answer:—To find the length of rafters, glvling the roof one-third pitch: Take three-fifths of the width of the building. If the building is 30 feet wide, they must be 18 feet long, exclusive of projection.

#### SEED TO THE ACRE.

The opinion of farmers differ materially; and then the climate and the soil have much to do with the quantity. The quantity of seed sown broadcast to the acre is about as follows:

Wheat14 to 2 bush.	Flax % to 2 bush.
Barley	Timothy 12 to 24 qts.
Oats 2 to 4	Mustard 8 to 20 1.
Rye	Red top
Buckwheat % to 1% "	Flat turnip 2 to 2 lbs.
Millet1 to 11/4 "	Red clover 10 to 16 "
Indian corn1 to 2 "	White clover 3 to 4 "
Beans 2 to 3 "	Kentucky
Peas 2½ to 3½ "	blue grass
Hemp to 11/2 "	Orchard grass 20 to 30 "
(1)	

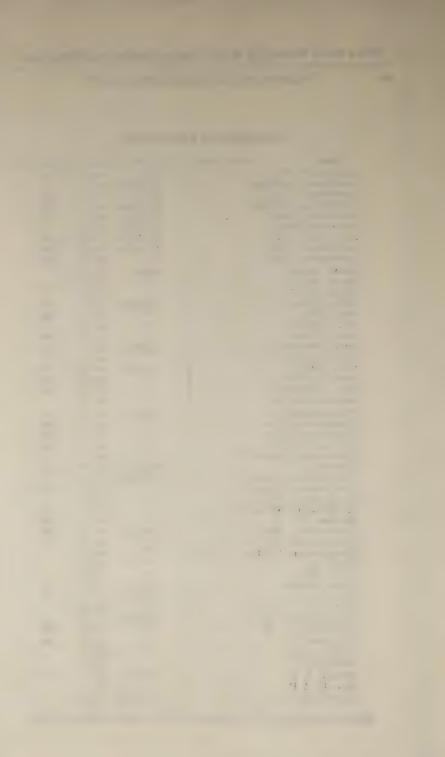

The quantity per acre, when planted in rows, in drills, is about as follows:

Broom corn1 to	11/2 bush	.   Onions4 to 5	bs.
Beans114 to	2 "	Carrots2 to 2¼ '	
Peas	2 "	Parsnips4 to 5	
Peanut	2 "	Beets4 to 6
